

Dear Parents,

We hope the kids enjoyed their Diwali vacation. We are looking forward to

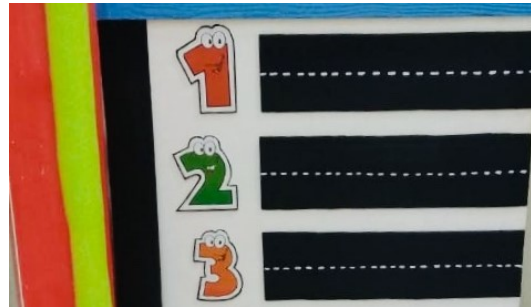

welcoming our dear children tomorrow, Monday Nov 19,2018 as the school reopens.

I am very excited to share that as a part of continuous improvement to our offerings, we are introducing STEAM and eBlocks in our preschool curriculum.

eBlocks is multi sensory learning platform that has earned international acclaim from educators worldwide. It encourages children to utilize multiple senses simultaneously to encourage "learning by doing"

STEAM stands for Science Technology Engineering Art and Math. Our curriculum already incorporated a lot of these principles . However, we are enhancing it further to reinforce these concepts from an early age. Children are born scientists and preschool is the best time to spark their natural learning curiosity.

We have made some very interesting changes to indoor play area to make the classrooms more conducive for STEAM activities. Starting Nov 27, every Tuesday, will be a "**Fun with Science**" Day where our children will be doing hands on science experiments and the teachers would be introducing them to science concepts. Here is a sneak preview of our play area.

We hope that you are as excited as we are about these enhancements. We are looking forward to seeing our children enjoying these new activities.

How are we doing ??

I would love to hear your feedback and any suggestions that you may have. Please take a moment to drop a line and share your thoughts.
